Bachelor of Computer Science Engineering

2022 – 2025

Maharashtra

Maharashtra State Board of Technical Education

Diploma in Computer Technology

2019 – 2022

Maharashtra

Summary

Full-stack developer experienced with MERN stack (MongoDB, Express, React, Node.js). Strong in API development, database management, and responsive UI design. Familiar with Flutter, cloud deployment workflows, and version control using Git/GitHub. Continuously improving backend architecture, performance, and problem-solving skills.

Professional Experience

Sparkle & Loop - Freelance Full-Stack Developer | www.sparklenloop.com

Jan 2026 – Present

- Engineered a high-performance e-commerce platform and a secured Admin Dashboard using **React** and **Tailwind CSS**.
- Developed a centralized management system for real-time CRUD operations on products and categories via **Supabase**.
- Implemented a seamless "No-Auth" checkout flow that redirects cart payloads to **WhatsApp API** for order fulfillment.
- Optimized media delivery by integrating **ImageKit.io**, ensuring fast image transformations and reduced page load times.
- Managed full deployment on Netlify, including custom domain mapping and secure environment variable configuration.

Personal Projects

RxManager - Pharmacy Management System | github.com/abdulrahman0842/rx-manager

- Developed a full-stack pharmacy inventory system using **React** for the frontend and **Node.js + Express** for the backend.
- Built comprehensive inventory workflows, including automated purchase entries and real-time stock tracking.
- Integrated **MongoDB** for persistent storage of pharmaceutical records and sales history.

The Daily. - News Web Application | github.com/abdulrahman0842/news-app

- Built a real-time news reading application using **React**, integrating **NewsAPI.org** for live data fetching.
- Implemented dynamic category browsing and multi-source filtering to allow users to customize their news feed.

Achievements and Participations

Protechnica - Project Competition

April 2025

Secured 1st Position

Malegaon, Maharashtra

- Won first prize for **Livo AI**, a liver disease prediction app, featuring a Flutter-based UI and REST API integration.
- Successfully demonstrated technical proficiency in mobile development and backend connectivity during a competitive presentation.

Certifications

UI Full Stack with React

Jun 2025 – Oct 2025

Naresh I Technologies

Hyderabad, Telangana

- Comprehensive training in MERN Stack development, focusing on React.js, Node.js, and Express API design.
- Gained practical experience in building responsive, component-based UIs and managing state transitions.
